

Demonstrator EYE+ training bench with Asycube 240

Application

This application shows all the different plates available and for which parts they work best. It shows how the EYE+ studio works as customers can create their own recipe with their parts. The purge and dual feeding can be shown with this application.

Interface

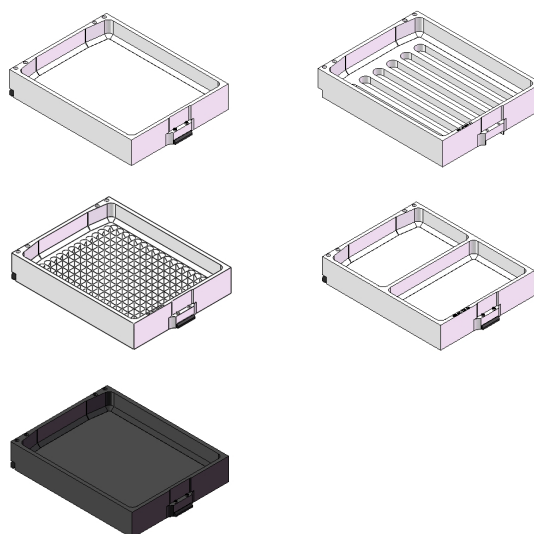

- ▶ External screen
- ▶ Mouse and keyboard with USB dongle
- ▶ Multi-socket power cable (CH)
- ▶ Adapters CH --> EU, US, IT, UK, CN
- ▶ Black cover for the crate
